

WELD PAD
SIGHT GLASSES

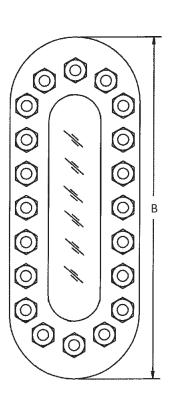

Weld Pad Sight Glasses are designed to be welded to process vessels. They consist of a weld pad, glass, gaskets, cover flange and bolting. Visible glass sizes range from 1" to 4" in width and 6" to 24" in length. The sight glass is clamped in place by a gasketed glass retainer held by threaded studs and nuts.

to/

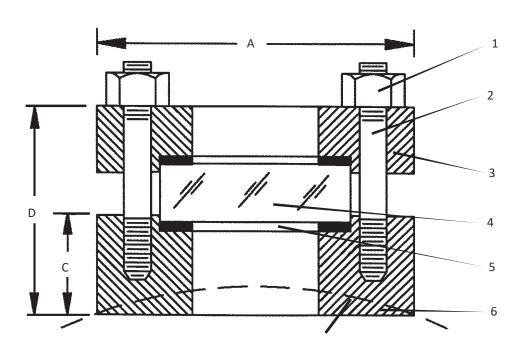

Materials of Construction

Standard Alloys	316L stainless steel; carbon steel
Standard Gasket Materials	Silicone, Rubber, PTFE and Non-asbestos Gaskets
Standard Window Materials	Tempered Borosilicate; Quartz Glass for High Temperature and Thermal Shock
	Acrylic Window

Weld Pad Sight Glasses

No.	Part Standard	Materials
1	Nut	SA194 2H Zinc plated alloy steel
2	Stud	SA193 B7 Zinc plated alloy steel, B8, B8M Class 2 SS
3	Cover Flange	SA516-70, SA240, T304, T316
4	Window	Tempered Borosilicate Glass, Mica, Acrylic
5	Sealing Gasket	EPDM, Viton, Silicone Rubber, PTFE
6	Welding Pad	SA516-70, SA240, T304L, T316L

Fabrication Note: It is the vessel fabricator's responsibility to verify that the weld pad offers sufficient reinforcement for their particular application.

Options include flat gasket seat and rounded inside corners for rubber lining, internal wash nozzles, outer safety shield, custom size view, special materials, etc.

Why Choose Us?

With our manufacturing presence in SAIF Zone, Sharjah, UAE, we are able to offer

Variety of Graded Raw Material, sourced from Europe, Japan & North America

10+ years of Experience

in Operation

Intrusive Stage-wise Inspections as per Requirements

Compliance to NDE Requirements as per Project Specifications

Instant Availability Of Spare Parts

Prompt Site Service Support within the UAE And GCC

Team of 30+ Technical Professionals

Our Clients
